M.Arch (Hon.) B.Env.Design

We are interested in motivated people who are passionate about architecture and the built environment.

JUNIOR ARCHITECTURAL TECHNOLOGIST

LETHBRIDGE, ALBERTA

One One Ten is a collective of architects, planners and unique specialists of the built environment working in the context of a new paradigm of professional practice in western Canada. We are passionate about our work and are committed to a collaborative approach to design. We utilize an explorative design process that connects the right people to produce thoughtful projects that engage context and the public realm. Our moniker name represents the calendar date our design atelier was initiated.

POSITION

We are currently looking for a qualified individual to join our core team. Our strategic expansion specifically requires the addition of a career oriented, highly motivated **Junior Architectural Technologist** seeking an opportunity for responsibility, advancement and leadership within our organization. We offer a competitive salary and compensation benefits package, as well as a collegial studio environment with passionate staff that strive for quality design and commit to superior client service.

QUALIFICATIONS

The ideal candidate will be responsible for planning and preparing detailed drawing packages and specifications and developing organizational strategies to meet work plan and production schedules. The individual must be able to participate on a diverse project team in the building design process from project inception through to design, construction documents and administration.

- Architectural Technology diploma from an accredited post-secondary institute.
- Membership or eligibility of membership with a provincial association.
- Two (2) years minimum full-time experience as an Architectural Technologist.
- Proven knowledge of architectural design, production processes and review of construction drawings.
- Fundamental knowledge of building codes, building materials and construction techniques.
- Proven ability to produce high quality deliverables, monitor project tasks and meet deadlines.
- Excellent oral and written communication skills.
- Ability to work well in a collaborative team environment upholding and representing the ideals of design excellence, sustainability and cost effectiveness in design projects.
- Proficiency in CAD/BIM (AutoCAD, Vectorworks, Revit) and Microsoft Office (Word, Excel and Project).
- Software ability in Adobe Creative Suite, 3D applications (Sketchup / FormZ) and Sefaira Architecture will be considered an asset.

SUBMISSION REQUIREMENTS

If you feel your skills would resonate with us, please submit your credentials in complete confidence with cover letter, curriculum vitae and three references in a single packaged .PDF file (max 10MB) to careers@010110.ca. Please keep your submission simple and indicate the position you are applying for in the email subject line and on your cover letter. Please include your salary expectation.

Hard copy applications by courier or mail will also be accepted, but not returned.

We sincerely thank all candidates for their interest, however only those being considered for a position will be contacted for an interview. No telephone calls please.
