We are interested in motivated people who are passionate about architecture and the built environment.

INTERN ARCHITECT

LETHBRIDGE, ALBERTA

One One Ten is a design focused Canadian architectural practice based in Lethbridge, Alberta providing professional design services in architecture, interiors, planning and environmental design. We began as a collective of architects and specialists of the built environment working in the context of a new paradigm of professional practice. We are passionate about our work and are committed to a collaborative approach to connect the right people in an explorative design process that produces thoughtful and engaging projects in contexts of the public realm. Our moniker name represents the calendar date our design studio was initiated.

POSITION

We are currently looking for a qualified individual to join our core team. Our strategic expansion specifically requires the addition of a career oriented, highly motivated **Intern Architect** seeking an opportunity for responsibility, advancement and leadership within our organization. We offer a competitive salary and compensation benefits package, as well as a collegial studio environment with passionate staff that strive for quality design and commit to superior client service.

QUALIFICATIONS

The ideal candidate must possess fundamental planning, design and/or project management experience. The individual must be able to participate on a diverse collaborative project team and support all aspects of architectural projects from inception through to project close-out. Candidates should be motivated, well-rounded and be able to demonstrate superior organizational abilities and technical knowledge in the design of buildings. Eligibility for professional registration is a prerequisite.

- Master of Architecture degree from an accredited university / school of architecture.
- Proven knowledge of architectural design theory and exceptional design skills.
- Fundamental knowledge of building codes, building materials and construction techniques.
- Proven ability to produce high quality deliverables, monitor project tasks and meet deadlines.
- Excellent analytic, decision making, oral and written communication skills.
- Ability to work well in a collaborative team environment upholding and representing the ideals of design excellence, sustainability and cost effectiveness in design projects.
- Eligibility and strong interest to complete internship for professional registration within three (3) years.
- Proficiency in CAD/BIM (AutoCAD, Vectorworks, Revit) and Microsoft Office (Word, Excel and Project).
- Software ability in Adobe Creative Suite, other 3D applications or Sefaira Architecture will be an asset.

SUBMISSION REQUIREMENTS

If you feel your skills would resonate with us, please submit your credentials in complete confidence with cover letter, curriculum vitae and three references in a single packaged .PDF file (max 10MB) to careers@010110.ca. Please keep your submission simple and indicate the position you are applying for in the email subject line and on your cover letter. Please include your salary expectation.

Hard copy applications by courier or mail will also be accepted, but not returned.

We sincerely thank all candidates for their interest, however only those being considered for a position will be contacted for an interview. No telephone calls please.
